

Emirates Fast Food Company: Serving Up a Satisfying Experience for Employees and Candidates

Emirates Fast Food Company LLC owns and operates McDonald's restaurants in the United Arab Emirates (UAE). To help ensure a consistent dining experience and serve some of the nation's favourite food across more than 185 restaurants, the organization relies on a young, highly diverse workforce made up of 25 nationalities. To offer employees the same **modern, mobile self-services** as customers, Emirates Fast Food needed to digitalize and standardize its inefficient, paper-based HR processes. With a new digital HR function, Emirates Fast Food Company has increased accountability, efficiency, and transparency, reduced the time and effort required to hire local talent, and significantly improved the employee and candidate experience.

THE BEST RUN

Satisfying Growing Appetite for Convenient, Digital HR Services

Emirates Fast Food Company LLC's workforce is young, diverse, and highly distributed – 65% of employees are aged 22-28 and they work at more than 185 restaurants across the UAE. Paper-based, manual HR processes were inefficient, and disparate policies made it difficult to manage HR effectively and deliver a consistent employee experience.

With the SAP® SuccessFactors® Employee Central solution, Emirates Fast Food Company centralized, standardized, and optimized HR processes based on proven best practices. The organization benefits from a single source of truth, instant access to employee data, automated approval workflows, and enhanced reporting capabilities – all available **on the go, anytime, anywhere** via the SAP SuccessFactors Mobile app. This has reduced the number of phone calls that store managers have to deal with by 75%, dramatically reducing administrative workload.

When the UAE government closed its borders to prevent the spread of COVID-19, Emirates Fast Food Company suddenly found itself unable to recruit people from overseas. Thanks to the SAP SuccessFactors Recruiting solution, the organization was able to rapidly ramp up its local recruitment efforts. Today, 150 people are recruited locally each month, compared to 30 before. Looking ahead, Emirates Fast Food Company expects to keep prioritizing local candidates, reducing its reliance on overseas recruitment agencies.

“With SAP SuccessFactors solutions, we can deliver a **consistently excellent experience** for employees at all our restaurants, so they can deliver an equally great experience to customers.”
